DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

a. Species A directed to Figs. 1-36; Species B directed to Figs. 37-51;
Species C directed to Figs. 52-63.

If Species A elected then elect one from each of the following lettered categories:

b. Species A1 directed to Fig. 5; Species A2 directed to Fig. 6; Species A3 directed to Fig. 7.

c. Species A4 directed to Fig. 9; Species A5 directed to Fig. 10; Species A6 directed to Fig. 11; Species A7 directed to Fig. 12.

d. Species A8 directed to Fig. 13; Species A9 directed to Fig. 19; Species A10 directed to Figs. 21 and 22.

e. Species A11 directed to Fig. 23; Species A12 directed to Fig. 24; Species A13 directed to Fig. 25.

f. Species A14 directed to Figs. 1-4; Species A15 directed to Figs. 26-29; Species A15 directed to Figs. 30/31; Species A16 directed to Figs. 30/32.

g. Species A17 directed to Figs. 33-34; Species A18 directed to Figs. 35-36.

If Species B elected then elect one from each of the following lettered categories:

Art Unit: 3641

h. Species B1 directed to Figs. 37 and 39; Species B2 directed to Figs. 37 and 45; Species B3 directed to Figs. 37 and 46; Species B4 directed to Figs. 37 and 47;

i. Species B5 directed to Fig. 48; Species B6 directed to Fig. 49

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 3641

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

2. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
